Math Kangaroo Practice - Grades 3-4

Practice set for 2002 #18
Five practice problems per selected problem.

Set 1 - Logic Deduction: Matching Pets & Items

Based on 2002, Problem 18

Practice 1.1 Leo, Mia, Noah, and Olivia each own a different pet: a rabbit, a hamster, a turtle, and a canary. Noah and Mia both own furry pets, Leo owns a bird, and Noah does not have the rabbit. Which statement is **true**?

A) Olivia has a rabbit **B)** Olivia has a hamster **C)** Olivia has a canary
D) Noah has a rabbit **E)** Olivia has a turtle

Practice 1.2 Maya, Nora, Owen, and Paul each brought a different snack: an apple, a banana, a cookie, and a pretzel. Owen and Maya both brought fruits, Paul brought a sweet baked treat, and Owen does not like bananas. Which statement is **not** true?

A) Owen brought the apple **B)** Paul brought the cookie **C)** Nora brought the pretzel
D) Nora brought the banana **E)** Maya brought the banana

Practice 1.3 Iris, Jack, Kate, and Liam each play a different instrument: a violin, a guitar, drums, and a flute. Jack and Iris both play stringed instruments, Liam plays percussion, and Jack does not play the violin. Which statement is **true**?

A) Kate plays the violin **B)** Kate plays the guitar **C)** Kate plays the drums
D) Jack plays the violin **E)** Kate plays the flute

Practice 1.4 Eva, Finn, Grace, and Henry each do a different sport: soccer, tennis, swimming, and cycling. Grace and Eva both play sports with a ball, Finn races in the pool, and Grace does not play tennis. Which statement is **not** true?

A) Eva does soccer **B)** Finn does swimming **C)** Eva does tennis
D) Henry does cycling **E)** Grace does soccer

Practice 1.5 Maya, Nora, Owen, and Paul each wear a different hat: a red cap, a blue cap, a sun visor, and a wool beanie. Nora and Maya both wear baseball caps, Owen wears a warm winter hat, and Nora does not wear the red cap. Which statement is **true**?

A) Paul wears the blue cap **B)** Paul wears the red cap **C)** Nora wears the red cap
D) Paul wears the wool beanie **E)** Paul wears the sun visor

Answer Key & Explanations

For generated/2026-10-19-21-02-42.pdf (Practice set for 2002 #18)

Solutions & kid-friendly explanations

1.1: E Noah and Mia have the two furry pets (rabbit and hamster). Since Noah does not have the rabbit, Noah has the hamster and Mia has the rabbit. Leo has the bird (canary), which leaves the turtle for Olivia. Therefore, 'Olivia has a turtle' (E) is true.

1.2: D Paul has the sweet treat (cookie). Owen and Maya have the two fruits (apple and banana). Since Owen does not like bananas, Owen has the apple and Maya has the banana. That leaves the pretzel for Nora. Thus, 'Nora brought the banana' (D) is not true.

1.3: E Jack and Iris have the two stringed instruments (violin and guitar). Since Jack does not play the violin, Jack has the guitar and Iris has the violin. Liam has percussion (drums), which leaves the flute for Kate. Therefore, 'Kate plays the flute' (E) is true.

1.4: A Finn has swimming. Grace and Eva have the two ball sports (soccer and tennis). Since Grace does not play tennis, Grace has the soccer and Eva has the tennis. That leaves the cycling for Henry. Thus, 'Eva does soccer' (A) is not true.

1.5: E Nora and Maya have the two baseball caps (red cap and blue cap). Since Nora does not wear the red cap, Nora has the blue cap and Maya has the red cap. Owen has the wool beanie, which leaves the sun visor for Paul. Therefore, 'Paul wears the sun visor' (E) is true.
